

DECORATE POMPEY FOR CHRISTMAS

Pompey is a B13 ½ class locomotive that once worked as a shunting engine at the Ipswich Railway Workshops. Pompey was built in 1904, which makes him over 100 years old. Pompey was in service for about 70 years and now stands at the entrance to The Workshops Rail Museum.

At Christmas time, Pompey is decorated in Christmas lights to welcome Museum visitors.

Colour and decorate Pompey so he is ready for Christmas.
